Vancouver, BC

EDUCATION

University of British Columbia, Vancouver

Sep 2025 - Apr 2029

2nd Year Bachelor of Science (B.Sc.) in Computer Science | Dean's List

TECHNICAL SKILLS

- Languages: Java, Python, R, TypeScript/JavaScript, HTML/CSS
- Frameworks & Tools: React, React Native, Vite, Expo, Git
- Cloud & Databases: AWS (EC2, S3, Aurora & RDS), Supabase (Auth, Tables), PostgreSQL (basic)

PERSONAL PROJECTS

Brezi | *Typescript, HTML, CSS, React Native, Expo, PostgreSQL*

Apr 2026 - Present

- Architected the data layer for photo competition app, designed basic Postgres schema in Supabase with RLS.
- Integrated EfficientDet local real-time AI object detection with React Native Vision Camera and migrated local Windows toolchain to EAS Build, establishing a reliable build-and-iterate workflow.
- In development of a 5-stage submission pipeline with per-user-scoped cloud storage on Supabase and client-side image compression via React Native Image Resizer to minimize upload payloads.

NeXt-List | *Java, JUnit, Test Driven Development*

Jan - Apr 2026

- Developed and implemented over 6 user stories including loading, editing, and saving persistent data via JSON.
- Wrote comprehensive test suite in JUnit 5 of over 17 tests achieving 100% code coverage in model code.

TECHNICAL EXTRACURRICULAR ACTIVITIES

Generic Health Consulting, WiDS ASA Datafest 2026 | *R, Python*

Apr 2026

- Analyzed over 340000 lines of distributed redacted medical history information from Stormont Vail Health in R to accurately locate and evaluate misallocated post-operative attention on varying patient needs.
- Classified patients into 4 archetypes through KNN-Classification providing Stormont Vail Health with better triage tools improving patient recovery and lowering hospital operating costs via more effective prioritization.

Correlation, HackCamp 2025 | *C#, HTML, CSS, JavaScript, Razor Pages*

Nov 2025

- Designed a cross-platform statistical engine by embedding an ASP.NET Core Razor Pages backend inside an Electron.NET shell that computes Pearson R-values across unrelated datasets and automatically notes pairings.
- Implemented custom scrapers for Statistics Canada's CSV archives and NASDAQ's historical-quote API, parsing raw JSON/CSV responses to compile decade-spanning time series without third-party parsing libraries.

WORK EXPERIENCE

Aquatic Leader, City of Coquitlam

Feb 2024 - Present

- Communicated clearly and professionally with up to 500 patrons daily, addressing concerns, answering questions, and resolving issues efficiently in a fast-paced environment.
- Adapted communication and problem-solving approaches to effectively support individuals with different needs and concerns, strengthening client-facing and interpersonal skills.
